EXPERIENCE

Graduate Researcher

Human-Centered Computer Systems Lab, SNU

📅 Sept 2024 – Present 📍 Seoul, South Korea

- Conducting research on **HCI, XR systems, and AI privacy**, focusing on inference risks and data protection in immersive environments.
- Designed and presented a framework for **on-demand functional affordance generation** in XR remote collaboration, currently under development.
- Initiated and leading a project on OS-level mechanisms to **detect and mitigate hidden inferences by AI models**.
- Collaborated on an **AI-driven scaffolding system for children’s storytelling**, contributing to educationally grounded system design and interaction data analysis.

Undergraduate Research Intern

Human-Centered Computer Systems Lab, SNU

📅 Sept 2023 – Aug 2024 📍 Seoul, South Korea

- Leveraged background in mathematics education to integrate social science research on child learning and scaffolding into system design.
- Designed and built LLM-based systems for educational interaction, focusing on child–parent storytelling activities and narrative development.
- Conducted qualitative and quantitative analysis of interaction data to evaluate engagement and learning outcomes.

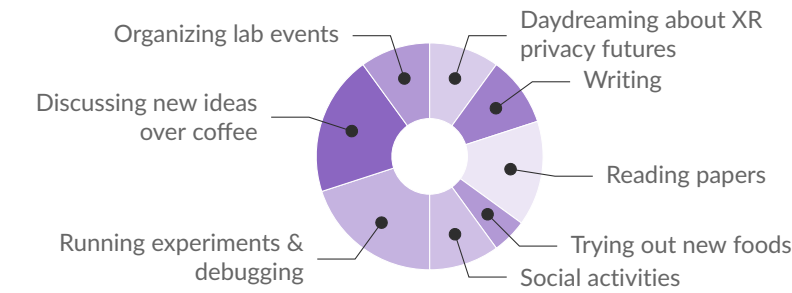

Teaching Assistant

Seoul National University

📅 Mar 2023 – Jun 2023 📍 Seoul, South Korea

- Served as mentor and TA in a project-based course connecting **Education and Artificial Intelligence**.
- Guided student teams in designing AI-driven educational applications, providing feedback on both technical implementation and pedagogical grounding.

A DAY OF MY LIFE

LIFE PHILOSOPHY

“Research is not only about systems, but also about people – to support, connect, and inspire.”

MOST PROUD OF

- 💡 **Research Vision**
for pioneering privacy-aware AI and XR systems that balance utility with user trust
- 👥 **Community Building**
by fostering collaboration and communication in lab, volunteer, and academic communities
- 🌐 **International Engagement**
through CHI/ UIST submissions, global volunteering, and presenting research to international audiences

STRENGTHS

- Collaboration
- Adaptability
- Analytical Thinking
- HCI & XR Systems
- AI Privacy
- Interdisciplinary Approach

EDUCATION

M.S./Ph.D in Artificial Intelligence
Seoul National University

📅 Sept 2024 – Present

B.S. in Mathematics Education & Artificial Intelligence
Seoul National University

📅 Mar 2018 – Feb 2024
