EXPERIENCE

Graduate Researcher

Human-Centered Computer Systems Lab, SNU

📅 Sept 2024 – Present 📍 Seoul, South Korea

- Conducting research on **mobile AI privacy and accountable mobile systems**, focusing on how LLM/VLM-enabled apps infer and expose private attributes in real app workflows.
- Characterizing how model-derived attributes travel through **UI, storage, network, voice, and cross-app channels**, and developing system abstractions for **attribute-, workflow-, and channel-level privacy protection**.
- Earlier works include an **AI-driven scaffolding system for parent-child storytelling** and **on-demand affordance generation for cross-spatial object interaction**.

Teaching Assistant

Seoul National University

📅 Sept 2025 – Dec 2025 📍 Seoul, South Korea

- Served as a teaching assistant for **Software Development Principles and Practices (SWPP)**, supporting programming assignments, code reviews, and team-based software projects.

Teaching Assistant

Seoul National University

📅 Mar 2023 – Jun 2023 📍 Seoul, South Korea

- Served as mentor and TA in a project-based course connecting **Education and Artificial Intelligence**. Guided student teams in designing AI-driven educational applications, providing feedback on both technical implementation and pedagogical grounding.

PUBLICATIONS & PRESENTATIONS

TaleTrain: AI Scaffolding for Parent-Child Video Story Retelling at Home

Sangwon Park, **Sieun Park**, HyunA Seo, Minkyu Shim, Youngki Lee
Under Review

Stop the Hidden Inference: Privacy Safeguards Beyond Permissions

Sieun Park, Youngki Lee
Presented at the UIST 2025 Workshop

At Your Fingertips: On-Demand Affordances for Cross-Spatial Object Interaction

Sieun Park, Youngki Lee
Presented at CHI 2025 Workshop

LIFE PHILOSOPHY

“Research is not only about systems, but also about people – to support, connect, and inspire.”

MOST PROUD OF

- 💡 **Research Vision**
for pioneering privacy-aware AI and XR systems that balance utility with user trust
- 👥 **Community Building**
by fostering collaboration and communication in lab, volunteer, and academic communities
- 🌐 **International Engagement**
through CHI/ UIST submissions, global volunteering, and presenting research to international audiences

STRENGTHS

- Collaboration
- Adaptability
- Analytical Thinking
- HCI & XR Systems
- AI Privacy
- Interdisciplinary Approach
